Wardrobe System

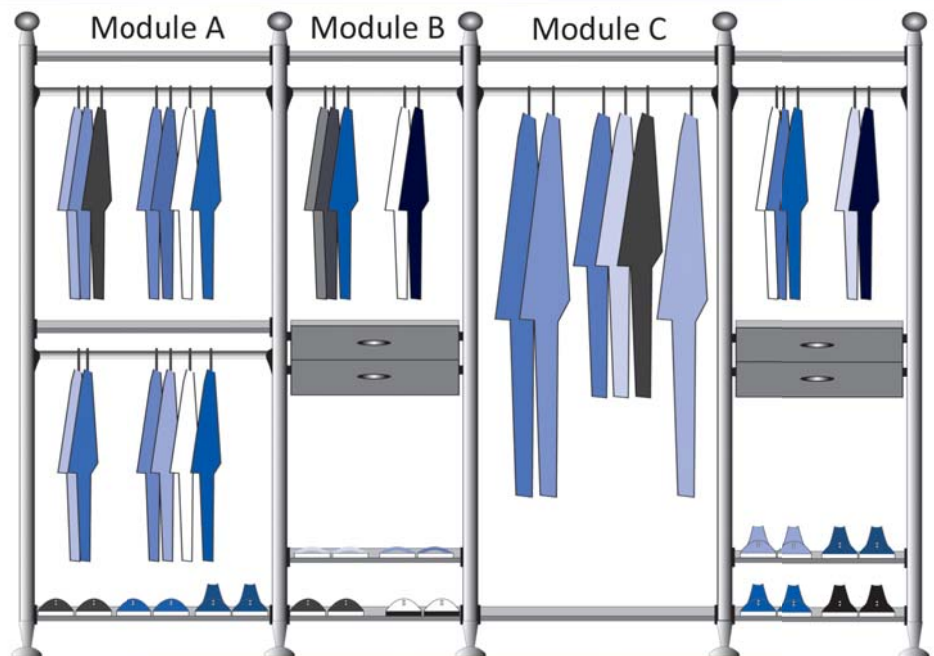

Wardrobe System

Kitchen Studio's range of wardrobes are made from satin anodised aluminium and durable melamine drawers and shelves. The aluminium poles connect to either the wall or ceiling which makes the system very easy to install. The individual modules displayed can be ordered easily with all components supplied or you can discuss with a Kitchen Studio representative your requirements for a custom made system.

Standard module widths are 600mm and 800mm and the depth of all modules is 500mm. Hanger rails and shelves can easily be modified to your exact requirements however drawer modules are only available in the two stated widths. Drawer units are available in two popular woodgrain colours: Ebony Oak and Best Maple.

	Description	Available sizes	Custom sizes Available
Module A	3 x Shelves 2 x Short hanger rails	600mm 800mm	Yes
Module B	3 x Shelves 1 x Short hanger rail 1 x Two drawer unit	600mm 800mm	No
Module C	2 x Shelves 1 x Full hanger rail	600mm 800mm	Yes
Optional Accessory	4 - Drawer mobile unit	600mm 800mm	No

Please note that module widths quoted are measurements between poles allowing for fixtures. When planning your new wardrobe system, the measurements between pole centres are 640mm and 840mm respectively.
